ORIGEN

Escenario de cuentos legendarios, de inspiración de grandes artistas y hogar de algunos de los parajes más bellos del mundo, así es Lake District (Inglaterra), un lugar de superlativos naturales. En reconocimiento a sus afamadas montañas, la nueva colección Salisbury reproduce las impresionantes y elegantes texturas de sus piedras.

La colección Salisbury aborda atentamente las necesidades estéticas y funcionales de la arquitectura contemporánea creando ambientes únicos, coherentes y personalizados. Las vibrantes y características vetas de esta resistente piedra otorgan un singular protagonismo a la decoración.

Una colección que recrea la materia conservando su esencia mientras se reinterpreta su identidad, destacando las tradiciones y los conocimientos artesanales.

Salisbury utiliza una paleta desaturada, inspirada en la naturaleza, capaz de transmitir sensación de paz y tranquilidad, incluyendo tonos tipo "Greige", también llamado el nuevo neutro, una de las tendencias de colores del año.

ORIGIN

The Lake District in England is home to legendary tales, a source of inspiration for great artists. It contains one of the most beautiful landscapes in the world. As an acknowledgement of its famous mountains, the new Salisbury collection reproduces the impressive and elegant textures of its stones.

The Salisbury collection carefully addresses the aesthetic and functional requirements of contemporary architecture by creating unique, coherent and personalised settings. The typical vibrant veins found in this resistant stone transmit a unique character to the decoration.

A collection that recreates tangibility, while preserving its essence and reinterpreting its identity. At the same time, it highlights the traditions and knowledge found in craftsmanship.

Salisbury uses a desaturated palette inspired by nature, one that transmits a feeling of peace and tranquillity. It includes tones such as greige, one of the colour trends of the year that is also referred to as the new neutral.
